NEW YORK, June 21.—The freight handlers strike continues and business along the piers is comparatively suspended, though some railway company's are filling the places of the strikers as rapidly as possible.

Crushed to Death.
[By Telegraph to the Sentinel.]
BALTIMORE, Md., June 21.—Yesterday William Robos, Lewis Salema and Barto Santmeyer were killed, and Jacob Baker and Frank Patterson seriously injured by a falling bank of earth and stone at the Mount Vernon cotton mills, in Baltimore county.

Miss Scoville at Milwaukee.
[By Telegraph to the Sentinel.]
MILWAUKEE, June 21.—Mrs. Scoville is here making arrangements to redeem her Beaver lake home which was lost under foreclosure. She claims to have the necessary funds. She is about to forward a large petition in behalf of her brother, to Attorney General Brewster.

The Striking Printers.
[By Telegraph to the Sentinel.]
BUFFALO, June 21.—The dailies issued their full number of publications as usual yesterday and this morning. The strikers remain firm and are very peaceable. The Courier-to-day publishes a double column advertisement for compositors at the prices demanded by the strikers, and announce that no strikers need apply. The other papers voice about the same sentiments.

Pitiable Condition of the Chicago Strikers.
[By Telegraph to the Sentinel.]
CHICAGO, June 21.—The condition of the strikers at Ironville is becoming pitiable. Their boasted reserve fund does not pan out, and many of them are actually suffering. They only grow more stubborn, however, preferring to depend upon the town for support than to yield their point. The Hyde Park authorities have given notice that they will not on any condition give the strikers any aid, for which declaration the strikers hold the Calumet Iron and Steel company responsible.

Contemplated Strike of Railroad Engineers.
[By Telegraph to the Sentinel.]
NEW YORK, June 21.—One of the most prominent railroad men in the country said yesterday that he did not look for a strike of locomotive engineers, and nothing which looked like such a strike had come to his knowledge. The Erie officials said they were not aware of any contemplated strike of engineers. The rumor of a strike on the Pennsylvania road was denied, on authority. The freight handlers continue their strike in this city and neighboring points. The Jersey Central company has sixty men at work under protection. The Erie company resumed handling freight with one-third of its usual force, but expects to handle all its freight to-day.

Fatally Injured—An Attempt to Wreck a Pay Car—Terrible Explosion.
[By Telegraph to the Sentinel.]
COLUMBUS, June 21.—Miss Downing, near Delaware, who was gored by an enraged cow, and had three

ribs and leg broken, face and body terribly lacerated, will probably die. An attempt was made yesterday morning to check the pay car on the Columbus and Hooking Valley road, near Sugar Grove, thirty six miles south, by placing obstructions on the track, but they were discovered in time. A Marion, Ohio, special says that a terrible explosion occurred yesterday afternoon on the farm of James Owens, seven miles east of that place, resulting in the death of the engineer, A. L. Hines, and a sawyer, Tom Barger. Dave Young was probably fatally scalded. A defective boiler and low water caused the accident. Both the men killed leave families at Caladonia.

The Cleveland Strike.
[By Telegraph to the Sentinel.]
CLEVELAND, June 21.—The Booth mill was started making rods this morning at the Cleveland rolling mills. The departments are started up as rapidly as ready, and the company officers say they have no difficulty in getting men. Siemens and Martin's steel works was started last night on night as well as day work. No disturbance at the mills to-day. The number of men at work continue to increase.

The Chinese Question.
[By Cable to the Sentinel.]
SHANGHAI, May 26.—A serious discussion is reported progressing in Tsung Li Yamen upon the course to be pursued respecting America's anti-Chinese action. One party said, "Welcome. It is affording an opportunity for severing all relations with the United States." A majority propose to await further developments, but all agree in declaring that China's rights have been ruthlessly disregarded, and that the American government has opened itself to retaliatory action if such be deemed expedient.

American Products in France.
[By Cable to the Sentinel.]
PARIS, June 21.—The senate commenced discussion of the bill for the readmission to France of American pork. Baron de Larerny charged the supporters of the bill with being disregardful of the health of the working classes. Wurtz, reporter for the committee, stated that the formalities now in force were so vexatious that commerce would prefer an entire prohibition of the trade. Tirard, minister of commerce, said the government accepted the bill as it then stood, reserving, however, the right to apply microscopic inspection if necessary. Clauses of the bill will be discussed Thursday.

President Cummings, of the N. Y. C. & St. L. R. R. Replies to Vanderbilt.
[By Telegraph to the Sentinel.]
CHICAGO, June 21.—Replying to an attack made by Vanderbilt upon the New York, Chicago and St. Louis railway, President Cummings, of the latter road, says: "It will become the president of the Lake Shore to talk about the fixed charges at which it is hoped to sell this line. I undertake to say that the fixed charges of our road, when it shall be completed and equipped and ready for business, will be lower than those of any line of similar length traversing so populous a section of the country. Its construction, management and facilities all combine to make it one of the most economically operated roads in the country. It is not unreasonable to expect that the earnings of the new road will approach to something near those of the Lake shore, and I estimate there will be a large surplus of net earnings." It is learned that only twenty miles of track remain to be laid to complete this road between Chicago and Buffalo, and it is rumored that a number of packers and grain operators have combined with that road to form a freight line for handling and forwarding from Chicago freight intended for export.

CAMERONS CROWD.
[By Telegraph to the Sentinel.]
HARRISBURG, June 21.—One hundred and eighty delegates have arrived. A caucus to determine its action was held this morning. The caucus was called to order in the state library room at noon, by Alexander P. Brown, of Philadelphia, and Judge Fetterman, of Allegheny county was made president. Judge Jeannet offered the following resolution: Resolved, That the state executive committee when organized,

be requested to issue a call for a new convention under the rules to complete the state ticket with full power to take such action on ticket already named as shall be for the best interests of the republican party of that state."

He believed that unless something was done towards patching up the grievances of the independents, the democrats would carry the state, both on the legislative, as well as the state ticket. He said that the charge that the nominations of this convention were dictated by one man would have to be met. He denied it, but yet the independents made the charge and it was believed in many places. He was in favor of a new convention, out and out. It was no sign of weakness on the part of this convention to endeavor to heal the breaches in the party. Mr. Huery, of Philadelphia, spoke in a similar strain. Mr. Carnahan, of Allegheny, opposed the attempt to placate the independents. Congressman Fisher favored completing the present ticket, which he believed would sweep the state. After a further interchange of views, General McCarty offered the following as a substitute for the resolution: "Resolved, That this convention proceed to complete its ticket by the nomination of congressmen at large, and that we recommend the republican state committee to adopt all honorable means to harmonize the republican party, so as to secure success in November." On the first ballot, Marriot Brasius, of Lancaster, was nominated for congressman at large. The vote was as follows: Brasius, 16; Lilly, 25; Todd, 17; Jacobs, 29.

The indications for the lower lake region are slightly warmer, easterly to southerly winds, lower barometer, partly cloudy weather and local rains. Deputy Marshal Dick Myer this afternoon arrested one Fred Hilgeman, charged with beating his wife. The affidavit was filed by Officer Franke.

This morning at 2:30, Fred Felger, of Arcola, who was hurt on the Pittsburgh track near that place Saturday night, died of his injuries. He leaves a widow and a large family of children. Inasmuch as it has not been definitely determined how Felger came to his death, THE SENTINEL thinks this a case for the coroner. The date of the funeral has not been arranged.

Arrested.
The fellow Herring, charged with the serious crime of rape, the particulars of which are mentioned elsewhere, was arrested this afternoon at his house by Deputy Marshal Patton. He made no effort to escape, saying he supposed the officer had come to shoot a tagless dog. Together with his aged mother, wife and infant in arms, Herring was brought to the mayor's court, where Mrs. Dame and her little girl, P. B. Colerick is defending the prisoner at the examination, which is in progress as we go to press. A reporter talked to Herrick, who is an honest appearing fellow, and he totally denies the horrible accusation. He says the child was discontented and expressed its determination to go home, and his wife and mother bear out his statement. Herring says his occupation is that of a rag buyer.

MALPRACTICE.

Dr. F. K. Cosgrove, of Maysville, Sued for \$10,000 for Alleged Malpractice.

The \$10,000 suit brought recently against Dr. J. H. Omo, of Maysville, seems to have stirred up the speculative people of that little village to go and do likewise and make a stake. To-day, the papers in the suit of Daniel S. Herrick, vs. Dr. F. K. Cosgrove, sr., of Maysville, were filed in the superior court. Colerick and Oppenheim, attorneys for plaintiff.

The complaint alleges that Herrick, who is, or rather was employed in a tress hoop manufactory at Maysville, had his left forearm caught by a saw and fractured. He employed as surgeon Dr. Cosgrove, by whose unskillful and unprofessional treatment, as alleged, Herrick is in bad shape, his arm having healed and become crooked and useless, incapacitating him for manual labor of any kind.

Herrick, therefore, thinks a nice little pot of cash like \$10,000 would make him in the future independent of the tress hoop manufactory, and legally demands Dr. Cosgrove to come down with the amount. The summons is made returnable at the September term of court. Of course Dr. Cosgrove will make a defense, denying Herrick's allegations as to unprofessional treatment.

A Novel Feature of the Fair.
At the new Library hall Thursday next, between 4 and 6 o'clock, there will be a baby show. The little cherubs will be exhibited by fond mothers or admiring friends. Drs. Heuchling and Buchman will act as judges, and will be assisted in discerning the prettiest babies by Mesdames Olds, Lowry, Woodworth and Fisher. The occasion will be novel and is looked forward to with expectation. Three prizes will be offered—one for a child between three and twelve months old, another for a child between twelve and eighteen, and still another between eighteen and thirty months old.

Forty-two Sioux Indians, who have been attending a government school in Pennsylvania, passed through this city yesterday on Pittsburg passenger train No. 1, en route to Dakota. The party took dinner at the Harmon house restaurant. There were several squaws in the party and the good looking clerk at the restaurant was invited by a buxom belle to come out and spend the summer on her reservation.

A Word in Regard to Self-styled Manufacturers.

It is common to read in almost any clothing advertisement, no matter how diminutive the dealer, the statement that he is a manufacturer, or his stock is made to his order, and therefore he is able to retail at wholesale prices.

Small manufacturers, except in specialties, have long since been crowded from the field. There is but one class of wholesale manufacturers in this country to-day, and they are the closest of this age. Their establishments represent fortunes in their equipments. Wholesale manufacturers, in this age of progress, to compete with each other, must be supplied with all the machinery of the present time—steam cutters, steam spongers, steam pressing machines, steam sewing and steam button-hole machines. This represents a fortune in itself. It then requires a small army to feed this vast mechanism, furnishing annual employment to thousands of operatives, to which annex the capital necessary to completely stock with material and fabric, oftentimes consuming the entire product of extensive woolen mills, and you have the reason why a small manufacturer cannot compete, except on paper, with those mammoth firms that have raised the standard of ready made clothing from its crude and imperfect make up of a dozen years ago.

Our factory at Utica contains every economy and labor-saving invention of the age, which could not be maintained except by vast outlet throughout almost every Northern State, facilities which small dealers do not possess, and without which they cannot compete. We hold the assertion that there is no clothing manufacturer in this city except that of OWEN, PIXLEY & CO.

It is very difficult, in fact impossible, to give accurate descriptions of clothing except in a general way, which is much like describing how a certain article of food tastes. It cannot be done satisfactorily. The food must be tasted, and the garment must be seen, to be fully appreciated. In this column we give, in round numbers, the number of suits upon our counters i. e. the various departments, a greater number, probably, than can be found in any half dozen competitive stores in the city. The question of variety from which to make a selection is so important that no argument is needed to convince any one that those large stores where the greatest varieties are exhibited are the best places to make purchases. These great varieties mean vast combinations in colorings, designs and shapes. Add to this the fact that we manufacture all our clothing, and retail strictly at New York jobbing prices, and you have the argument why you should visit OWEN, PIXLEY & Co. for your clothing. Come in, and afterward form your own conclusion from personal inspection.

A NEW DEAL.

Re-Organization of the Northern Indiana Fair Association--- No Aid to be Asked of the Citizens Except Their Patronage and Good Will.

For several seasons, there has been little encouragement on the part of Fort Wayne's citizens and the country people to the efforts of the Fair association to provide a yearly exhibition of the city and county's industries and products.

Vainly has the association appealed for aid to the citizens, who closed their ears and pockets. A number of practical business men have gotten together and concluded that they would re-organize the association, and give a fair on a new basis. No further pitiful appeals for aid will be made to our citizens. The new association will spare no pains or expense to have the greatest fair ever known in the history of the county. A most enthusiastic meeting was held last evening at the office of the Citizens' street railroad company, and the re-organization perfected. The officers were elected as follows:

President, E. A. K. Hackett.
Vice-President, Perry A. Randall.
Secretary, W. W. Rockhill.
Treasurer, David O. Fisher.
Superintendent, J. W. Pearce.

Directors, John H. Bass, W. A. Kelsey, O. A. Simons, S. B. Bond, Chas. McCulloch, R. T. McDonald, Wm. Fleming, W. W. Shoaff, S. C. Lombard, E. C. Bell, H. G. Olds, Thomas S. Heller, Robert S. Taylor, M. E. Argo, A. J. Taylor, W. H. Schoonover, H. K. Turner, George Hand, Ira Grubb and John Henderson, Allen county.

The date of holding the fair was fixed at from Sept. 25th to Sept. 30th, and the preliminaries are being busily arranged. The fair association is composed of gentlemen who have means and are energetic enough to fulfil their promise to the public. They justly believe if they do not accomplish what they agree to, they cannot fairly ask public support. On the contrary, if at great expense and pains they give our people a fair worthy of support they want it. This they propose to do and will do. Some entirely new features will be introduced, notably a ladies' industrial department, cash prizes being offered for every kind of female handiwork. The agricultural and stock departments will be the most complete ever known. The races will be an important feature. Only the best horses will be entered, and the purses will be liberal enough to make it an inducement for turf men to come a long distance with crack animals. A feature of the racing department will be the encouragement offered to fast animals owned in Northern Indiana. It is expected that some phenomenal speed will be developed in native horses.

A five years' lease of the fair grounds has been obtained by the association, so that it will be seen that if energy and money can establish the Northern Indiana fair on a permanent and financially successful basis, these elements will not be spared.

The fair will, contrary to previous custom, be liberally advertised all over this and neighboring states and the inducements to exhibitors be made such as to bring them from abroad.

Altogether, THE SENTINEL is pleased to know that the fair in future will not be conducted on the charity plan, but on its merits solely. We feel sure that the result will be in a most liberal patronage, and that the good will of our citizens and the business community who gain so much by these fairs will be cordially extended to the enterprise. Our former friends we know will be ambitious to do their part to have the fair a success and conclusively prove to the outside world that there is no boast when it is claimed that Allen is one of the richest of the counties of the state in agricultural and other resources.

THE
PEOPLE ADVANCING
ALL
ALONG THE LINE.

Drs. Frothingham and Kingsley of the Grand Rapids English Medical and Surgical Institute, 61 Monroe street have arrived in our city and have established a branch at 34 West Main street, Aufrecht's block, Fort Wayne, where our many citizens now under their treatment can consult with them; also any who may wish to obtain the benefit of their necessary diagnosis of their diseases without questions and free of charge, thus giving every one the privilege of their unexcelled expertness in their specialty, without the heretofore long journey to their Institute in Grand Rapids. For the past three years so frequent and imperative have the demands that they should personally visit their many patients in our city, and Northern Indiana, that they have at last consented, and will charge nothing for all those coming under their treatment the first 20 days. Dr. F. & K. accomplish all by the accuracy of their diagnosis, which amount almost to intuition; they locate every ache and pain; explain how and why the disease or ailment was contracted, and demonstrate how it can be eradicated and in what length of time; these facts are said by their patients to be marvelous. The question is now, "can we be cured?" Drs. F. & K. take no cases pronounced by them incurable, but so state the case to the patient. They have no time for experiments; their time is all occupied treating those they can cure.

A thousand testimonials from Grand Rapids can be seen at their office, some of which we would print had we room. June 6 dawn.

FARLORS NO. 34 WEST MAIN STREET.

CHARGED WITH RAPE.

Dennis Herring Arrested for Rape on the Person of Minnie Dame, Ten Years Old.

This morning, Amanda Dame, a widow, living in the rear of No. 98 Baker street, came to the mayor's office and stated that she wished to file an affidavit, charging one Dennis Herring with rape on the person of her ten year old daughter, Minnie Dame. Mrs. Dame was seen by a reporter of THE SENTINEL and stated that she had made known that she wished to place out at work in respectable families, her two little daughters, she being poor and unable to support them. To her house came one Dennis Herring, who represented that he wished a little girl to make herself useful about the house and attend to his baby. Herring lives at the extreme end of South Calhoun street, in a dilapidated building, but one room. He has a wife and infant child. Herring is about thirty years old, and has for a time driven an express wagon. He is given a character none of the best. On last Thursday, the mother consented that her child might go to Herring's house, and she accordingly took up her residence there. Last night she came home bringing her clothes, and violently weeping said she did not want to go back. Closely questioned, she stated that Herring had in the absence of his wife, seized her and throwing her upon the bed outraged her person, holding his hand over her mouth to suppress her screams. By alternate threatening and coaxing, he induced her to remain silent. Yesterday, however, she said Herring tried to repeat his fiendish act, and she fled home.

Some people are inclined to doubt Mrs. Dame's story, and affirm that little Minnie is a precocious kid, well schooled in vice, even though so young. Mrs. Dame, the mother, is not given a overly good reputation by those who know her. She formerly kept a peanut stand at the corner of Clinton and Main streets. Two years ago she accused one Dishong, who lives on the Godfrey farm, of outraging Minnie, who was then eight years old. This case was in some way settled. It is also alleged that Mrs. Dame obtained \$500 cash from a prominent business man some time ago as hush money for some indiscretion on his part in which affair the widow was alleged to have been mixed up. Mrs. Dame is a rather faded female but bears the traces of once having been good looking. She was very shabbily attired, and her face would not at all lead one to the supposition that she was anything of a saint.

Deputy Marshal Patton has the warrant for the man's arrest, but had not at this writing found him. He will have his preliminary examination before the mayor.

An Advance Agent Pinched.

Yesterday afternoon Officer Frank Rohle caged a dizzy looking individual whose checkered pants, white plug hat, \$1 diamond headlight and dirty shirt proclaimed him unmistakably a member of the barnstorming profession. The man's name is A. W. Purcell, and he is a remnant of the wreck of what was a few weeks ago known more or less to fame as the J. P. Lester combination, and drifted into Decatur after the show went to pieces. On his arrival there he formed the acquaintance of Mrs. Teepel, who keeps a seminary for vicious young ladies. It is said that the crushed striation at once cut out another fellow named Pat Burns, who had previously enjoyed solidity with the landlady. Purcell claims she gave him a gold watch and chain as a mark of her affection, and she says he stole it. That is why the agent was locked up. Burns, it would appear, is again solid with the Teepel female, and deputized as an officer he came here and conveyed Purcell to Decatur last night. The watch was found by Officer Rohle on the latter's person, LATER.

This morning, the man Pat Burns, who is said to be a horse jockey, bobbed up in police court. It appears that he and his prisoner, Purcell, got drunk together last night and Purcell skipped, taking with him the watch. Burns paid \$13 75 this morning at police court and went home to Decatur to report.
